

SINCLAIR OILS GO TO NEW HIGHS ON CURB

Midvale Steel and United Dyewood Also Advance in Active Market.

CHEVROLET DROPS HARD

Other Motors Show Weakness, With Fractional Declines Resulting.

Stocks were irregular and active in the outside market yesterday. Sinclair Oil shares and bonds established new high records, the bonds selling to 112, more than 2 points above the final on Wednesday, and the stock to 62, 2 points higher. Other oil shares were also firm, with Peerless advancing to 6%. Midvale Steel sold to 7% and was compared with a closing of 6% on Wednesday. North American Paper and Pulp advanced to 15%, but reacted and closed at 15%. Alita Explosives sold down to 8%, almost 1 point lower than the preceding close.

United Dyewood advanced to 75, 3½ points above Wednesday's close. Marlin Arms selling 3 points higher reacted and closed unchanged. Central Foundry issues were firm, the common and preferred advancing from 1½ to 2 points respectively. Coppers were fractionally lower.

Motor stocks were weak, with Chevrolet losing 9 points from the close last week and the others declining fractionally.

United Kingdom bonds were weak at the close, with the 5-year notes ½ lower and the 5-year declining ¼. French municipals lost ½ on the day, and the Russian issues remained unchanged. Sales and quotations:
